

## **MAGPRO-WSBIP65**

Waterproof IP65 deep base for use with sounder models : MAGPRO-WS MAGPRO-WSS MAGPRO-WSS23

EN 60529+A1:2004

#### Distributor:

Elite Security Products Ltd. Unit 7 Target Park, Shawbank Road Lakeside, Redditch B98 8YN, UK http://www.espuk.com

### Manufacturer:

Teletek Electronics JSC. Address: 14A Srebarna Str. 1407 Sofia, Bulgaria

# Installation

The declared IP65 is achieved only when using IP65 or higher rated cable alands!

- \* With mounted sounder:
  - MAGPRO-WS - MAGPRO-WSS

  - MAGPRO-WSS23

Indoor and Outdoor Use

### INSTALLATION INSTRUCTIONS

ATTENTION: MAGPRO-WSBIP65 must be connected only to fire panels, which support MAGPRO communication protocol!

# **General Description**

MAGPRO-WSBIP65 is a waterproof protected deep base specially designed for outdoor installations of addressable sounders MAGPRO series. The deep base is suitable for wall mounting in applications in aggressive environments requiring IP65 protection of the devices.

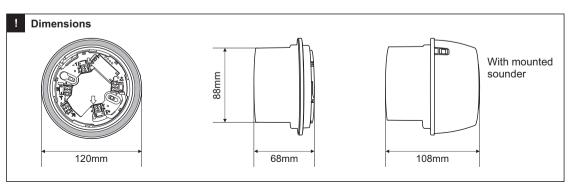

MAGPRO-WSBIP65 comes in a kit with a solid rubber gasket, o-ring sealant and IP65 rated cable glands. MAGPRO-DB standard base is mounted with screws.

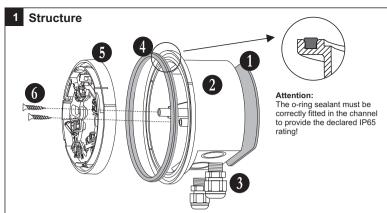

#### Installation

- 1. Remove the MAGPRO-DB standard base from the deep base body.
- 2. Remove the knockouts and place the two cable glands from the kit.
- 3. Fix the deep base and the solid gasket to the mounting surface.
- 4. Run the loop wires through the cable glands.
- 5. Mount the MAGPRO-DB standard base back in place as observe the short mark on its narrow side to align with the short mark of the deep base. Then fix the standard base to the deep base body with the screws from the kit.
- 6. Connect the loop wires to the standard base terminals according the connection diagram. Please, also refer to the installation manual of the mounted sounder to perform a correct wiring - the electrical connection may differ according that the sounder is with or without built-in isolator module.

**Surface Mounting** 

Remove the knockouts of the cable aland holes.

Place the back box in upright position; Mount cable glands with IP65 into the holes and tighten the nuts underneath.

### Attention:

Do not drill holes in the solid rubber gasket in advance! Place the gasket behind the deep base and fix them together to the installation surface.

Mount the deep base to the wall placing the solid rubber gasket behind.
